NEMA 4X ENCLOSURES

Outdoor/Industrial Enclosures for APM & Vista Touch Meters

EHL-68x68 - APM Enclosure

EHL-92x92 - VT Enclosure

PANEL METERS SOLD SEPARATELY

Designed to extend the installation possibilities of the Trumeter APM and Vista Touch ranges, this enclosure provides reliable protection where panel mounting is not practical or where environmental conditions demand additional protection, making it ideal for applications in industrial, utility and outdoor environments.

Manufactured from UV-resistant polycarbonate with a hinged cover, stainless steel latches and a neoprene gasket, the enclosure is rated to IP66 and NEMA 4X for protection against dust, water ingress and harsh weather conditions. It provides a durable, professional mounting solution while maintaining excellent visibility and easy access to the display, making it suitable for a wide range of indoor and outdoor monitoring, control and process applications.

Applications

- Outdoor electrical distribution panels and switchgear
- HVAC plant and building services
- Renewable energy systems, including solar and battery storage
- Industrial process equipment and control panels
- Flow monitoring on water, chemical and process lines
- Utilities and infrastructure installations
- Marine and port facilities
- Food and beverage processing environments
- Agricultural irrigation and pumping systems
- Quarrying, mining and construction equipment
- OEM machinery installed in exposed or washdown environments
