

Letter of Volatility

Product Family : 6300 family of counters and timers
Manufacturer: Trumeter
Address: Pilot Mill
Alfred Street
Bury, Lancs
BL9-9JR
United Kingdom

The 6300 family of products contain the following volatile and non-volatile memory:

Item 1: Non-Volatile Read Only Memory (Masked ROM) (up to 6 KB):
Contains the application firmware.

Item 2: Volatile RAM (128 bytes):
Used by the system for temporary data storage.

The 6300 contains an internal 3V lithium battery. To clear volatile RAM, the unit will need to be disassembled and the battery removed.
