

ENVIRONMENTAL POLICY

Trumeter is committed to the continuous management and improvement of environmental performance and the prevention of pollution from the activities we undertake. We comply with all applicable legal and other relevant requirements that relate to our activities as well as all official codes of practice. In addition, we will adopt best practices in relation to environmental management where possible.

We are committed to:

- Implementing energy saving technologies and initiatives
- Minimising the environmental impacts of business travel
- Using utilities in a responsible and economic way
- Managing waste according to our duty of care; minimising volumes going to landfill and re-using and recycling wherever possible
- Purchasing supplies which are recycled and recyclable, and whose production and use minimises the consumption of natural resources
- Conserving resources by ensuring that buildings and fittings are properly maintained and reflect appropriate eco guidance
- Communicating this policy and our environmental performance to people working for or on behalf of the organisation

John Smith
